**DETAILED ACTION**

**Supplemental Allowance**

**Drawings Approval**

In the Office Action issued on 1/28/09, examiner had objected the drawings for not showing the claimed “mobile device” and claimed “base station”. In the response submitted on 6/29/09, Applicant, citing 37 C.F.R § 1.81, argued that the “mobile device” and the “base station” are not necessary for the understanding of the subject matter sought to be patented and requested examiner to withdraw the objection to the drawings. Being convinced by applicant's argument, examiner withdrew the drawing objection, in the final action issued on 10/7/09, by indicating approval/accepted in PTOL-326. In response to the final action, applicant filed an RCE on 4/10/10. However, in the allowance of the claims issued on 4/6/10, examiner indicated in the PTOL-326, that the drawing is still objected. This was an inadvertent error on the part of the examiner and examiner apologizes to applicant for any inconvenience that may have resulted from such confusing actions.

Examiner sets the record clear by this action that the drawing objections in the Office Actions of 1/28/09 and 4/23/10 have been withdrawn in response to applicant's convincing argument submitted on 4/6/10, since the “mobile device” and the “base station” have no bearing in understanding the subject matter, as stated therein.
